Block 4, maryson street off arab road, kubwa, abuja

Summary

Digital Content Strategist & Performance Marketer with a proven track record of driving high-impact user acquisition and brand growth in the AI, Health, and Legal-Tech sectors. Expert at translating complex technical products into human-centric narratives that convert, evidenced by scaling MEETSESSION to 500+ users in 30 days and securing nationwide adoption for JudicAI across 56 courts.

Highly skilled in multi-channel campaign management (Meta, Google, LinkedIn), video storytelling, and community leadership. A strategic communicator with international advocacy experience, including presenting at USAID-level conferences, I specialize in building sustainable digital ecosystems and high-conversion lead pipelines in remote, results-driven environments.

Experience

■ Digital marketer / community manager | MANI

January 2023 - 2025

- Campaign Strategy & Lead Gen: Executed end-to-end digital marketing campaigns and paid advertisements to increase youth access to mental health resources, driving measurable engagement and service sign-ups.
- Content & Storytelling: Produced human-centric content and educational narratives centered on mental health awareness, effectively simplifying complex psychological concepts for a diverse digital audience.
- Community Management: Moderated a high-engagement WhatsApp community, utilizing psychoanalytic insights to guide members toward professional paid treatments and support systems.
- Public Advocacy: Represented the organization in high-level public advocacy, notably becoming the first student to present at a joint USAID conference regarding mental health initiatives.

■ digital marketer / comms assistant I skill sync summit (moniepoint)

August 2025 - present

- Strategic Growth: Spearheaded the digital marketing strategy for a high-impact professional summit, driving significant follower growth and securing high-level engagement from industry leaders and stakeholders.
- AI Integration & Evolution: Led the transition of marketing narratives to focus on Large Language Models (LLMs), ensuring the summit remained at the forefront of AI-driven technological shifts for mid-career professionals.
- Ecosystem Collaboration: Facilitated strategic partnerships and digital synergy between tech builders and the wider professional ecosystem to foster innovation and collaborative growth.
- Content & Event Coverage: Managed real-time event highlighting and multi-channel content distribution, positioning the summit as a premier destination for AI skill-up and professional development.

■ Head of communications / product analysis I Devon technologies

July 2025 - April 2026

- Growth & User Acquisition: Orchestrated the digital marketing strategy for MEETSESSION, achieving a milestone of 500 new user sign-ups within a single month through targeted campaigns and data-driven optimization.
- Market Expansion & Partnerships: Spearheaded the adoption of JudicAI across 56 Nigerian courts and expanded international footprint into Ivory Coast; secured strategic partnerships with organizations like the PPDC to develop bespoke legal-tech solutions.
- Product Strategy & Design: Collaborated with engineering and design teams to refine product workflows for high-level stakeholders, including Supreme Court and Federal High Court judges, while managing end-to-end content design and video production.
- Stakeholder Engagement: Acted as a primary liaison between technical teams and legal professionals, leveraging deep knowledge of the legal-tech startup ecosystem to deliver tailored AI products to judges and key industry partners at high-level parleys.
